

Monkey Mind

By Steve Jones, Luca Basso, Johanna Lundström

Rulers of the planet
we multiply and spread
The crown of evolution
sits easy on our head

We built societies
but never get enough
We want bigger better faster
newer shiny stuff

Monkey mind, monkey mind
we all got that monkey mind
We're the greedy human kind
with a monkey mind, monkey mind

We think we're clever
think we know who's boss
Still we can't see
what we call profit is a loss

We cut down the forests
empty the sea of fish
and we think pleonexia
is a yummy foreign dish

Gimme gimme I want more
though I'm already full
Gimme what I want
or you should see the face I pull

Monkey mind, monkey mind
we all got that monkey mind
Give it here it's mine mine mine
Monkey mind, monkey mind
Monkey mind, monkey mind
we all got that monkey mind
Brash and greedy humankind
with a monkey mind

We think we're sophisticated
Pretending we don't know
the ape in our heads

Ooooooooooh
Monkey mind, monkey mind
we all got that monkey mind

Give it here it's mine mine mine
Monkey mind, monkey mind
Monkey mind, monkey mind
we all got that monkey mind
Brash and greedy humankind
with a monkey mind, monkey mind

Hey, hey, hey, hey, hey, hey, hey, hey
hey, hey, hey, hey, hey, heyyyyy

Monkey mind, monkey mind
we all got that monkey mind
Give it here it's mine mine mine
Monkey mind, monkey mind
Monkey mind, monkey mind
we all got that monkey mind
Brash and greedy humankind
with a monkey mind
